NOTICE AND OPPORTUNITY FOR PUBLIC COMMENT

The Mobile Airport Authority (MAA) is proposing to amend PFC Application No. 06-05-C-04-MOB by decreasing the total amount collected from \$4,681,541 to \$4,736,147, a reduction of \$54,606.

Federal Aviation Regulations (FAR) Part 158, *Passenger Facility Charges*, §158.37(b)(1)(i)(C) requires airports to provide public comment if there is a change in scope of a project. This letter serves as an opportunity of public comment of this proposed amendment.

The public has 30 days from the date of this notice to file comments. The final date for comment is Wednesday, August 13, 2014. Please submit all comments to Jennifer Shearer by one of the following methods:

This notice provides all information set forth under Section 158.23(b) that is required to be presented to the public as part of the opportunity for comment, including the following:

1. A description of the project(s)
2. An explanation of the need for the project(s) (justification)
3. A financial plan for the project(s), including (a) the estimated allowable project costs allocated to the project elements, (b) calculated amount of PFC revenue that would be used to finance the projects, and (c) the sources and amounts of other funds, if any, needed to finance the projects

The two main sections of this brochure include the Description of Projects and Financial Plan. The Description of Projects includes a description along with the amendment information for which the Airport intends to amend this PFC.

REQUEST THAT A CLASS OF CARRIER NOT BE REQUIRED TO COLLECT PFCs

Section 158.11 of FAR Part 158 permits the Airport to request that a class of air carriers not be required to collect PFCs. Such a class is one that constitutes no more than 1% of the total number of passengers enplaned annually at the airport at which the PFC is imposed. The Airport proposes to exclude from the requirement to collect a PFC the class of carriers titled air taxi/commercial operators (ATCO) that file FAA Form 1800-31.

No known carriers belonging to the class identified in this section filed Form 1800-31 identifying passengers for MOB in CY 2011.

Below are the proposed projects to be amended.

05-059 Install Boarding Canopy and Ramp

DESCRIPTION

Acquisition of a mobile passenger boarding ramp with canopy system to allow passengers access to aircraft unable to access a passenger loading bridge from the terminal building without having to use stairs.

AMENDMENT INFORMATION

Change in scope from design and purchase to a design only project. MAA received one bid for the Boarding Ramp. The bid included several irregularities including no bid bond, a non-notarized Certificate of Compliance, markups/modifications to ramp specifications designed, modifications to the payment schedule, as well as requiring Owner to supply equipment. Do to these issues, MAA has determined it is in its best interest to reject the bid and remove the purchase portion of the project from the PFC application and leave the project as a design only. The acquisition of a passenger ramp will be left open for future PFC Applications. The Approved Use amount of \$70,000 will be reduced to \$9,098. A decrease of \$60,902.

05-067 Terminal Building Carpet - 1st Floor

DESCRIPTION

Replace carpet on first floor of terminal building with a hard surface material

AMENDMENT INFORMATION

Increase in cost due to final buffing and polishing of terrazzo that was not included in original contract. The Approved Use amount of \$939,968 will increase to \$946,264. An increase of \$6,296.

Section 158.23(b)(3), Financial Plan:

In accordance with Section 158.23(b)(3) of FAR Part 158, this section of the document provides a detailed financial plan for the proposed amendment of the project elements for funding by PFC revenue.

As required in Section 158.23(b)(3)(i), a summary is provided of the approved allowable costs including the sources and amounts of other funds needed to finance the projects and the proposed amended costs.

Below is a table of proposed changes under this amendment request.
